STAINLESS STEEL
PIPES AND FITTINGS

**MANUFACTURER
STAINLESS STEEL
PIPES AND PRESSFITTINGS**

BARCELONA - SPAIN

OUR VALUES DEFINE US: **SERVICE, HONESTY AND OPTIMISM**

Isotubi is a second-generation family-owned company based in Barcelona, specialized in the manufacturing and commercialization of **pressfittings and stainless steel tubes**, with 50 years of experience. Our customized, innovative, efficient and competitive product exceeds the **highest quality requirements** set by leading international standards and is backed by a **close and approachable service** that has become a distinguishing feature of our company.

COMMITMENT TO SUSTAINABILITY

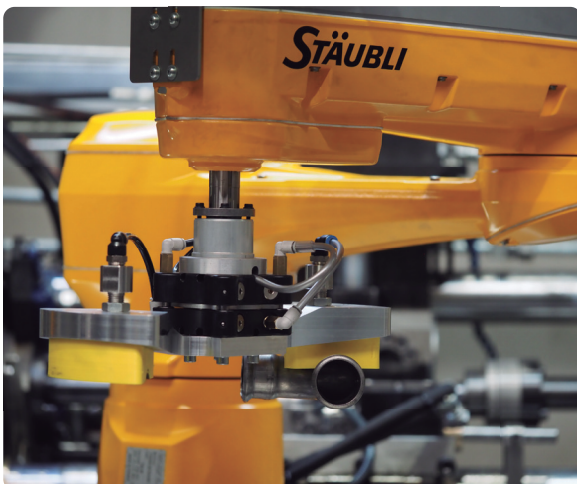

At Isotubi, we are committed to sustainability. In addition to being certified under the ISO 14001 environmental management standard, we have achieved a **Gold Sustainability rating from EcoVadis**, placing us in the **TOP 5% of the best-rated companies** worldwide by this organization.

Our initiatives include the **implementation of a fully digitized warehouse management system**, order management via **EDI**, new process structures, and vending machines for PPE in our work centers. The digitalization of these processes through automation allows us to **use materials more efficiently to reduce emissions**, and to stay on track with the United Nations Sustainable Development Goals (SDGs).

Furthermore, we are committed not only to the environment, but also to society-supporting NGOs and promoting the wellbeing and development of our employees.

INDUSTRY 4.0

Furthering our commitment to **Industry 4.0**, Isotubi is known for its strong focus on innovation. We work with **top-notch machinery** from top-tier suppliers and use **robotic systems in our production plants**, allowing us to offer highest quality product that has made us a benchmark in the sector.

CEO of Isotubi

THE SYSTEM

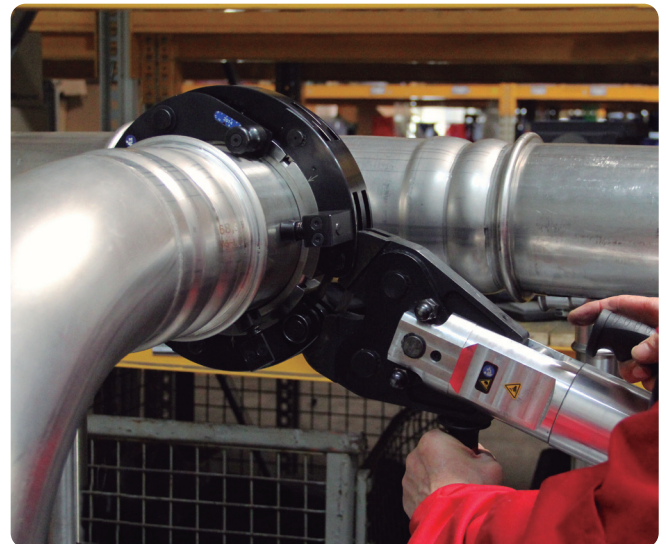

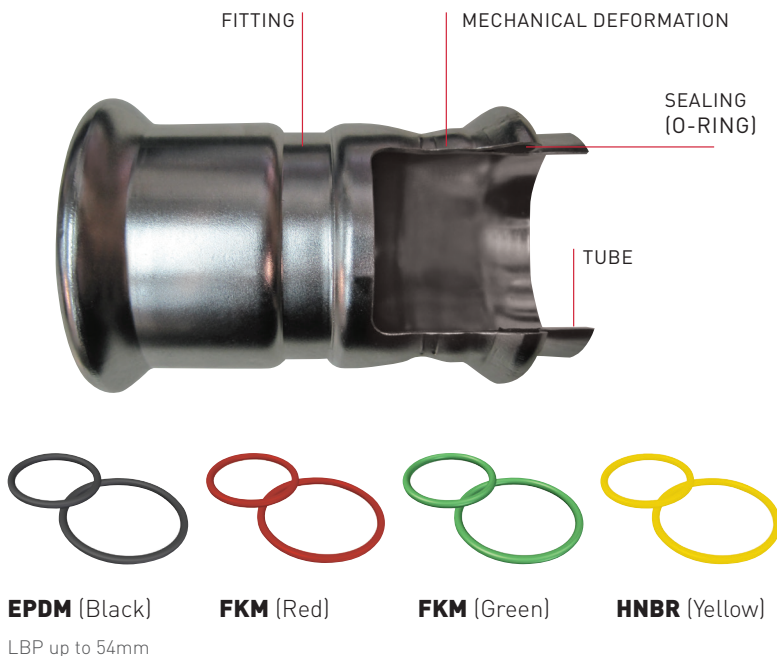

Our core product is the **Numepress Pressfitting** system, consisting of stainless steel pipes and press fittings from 15 to 168.3 mm, allowing for quick and easy installation without welding.

The welded stainless steel pipe (TIG) is manufactured using material 1.4404 (AISI 316L) and material 1.4301 (AISI 304), in compliance with the standard for austenitic steels UNE EN 10088.

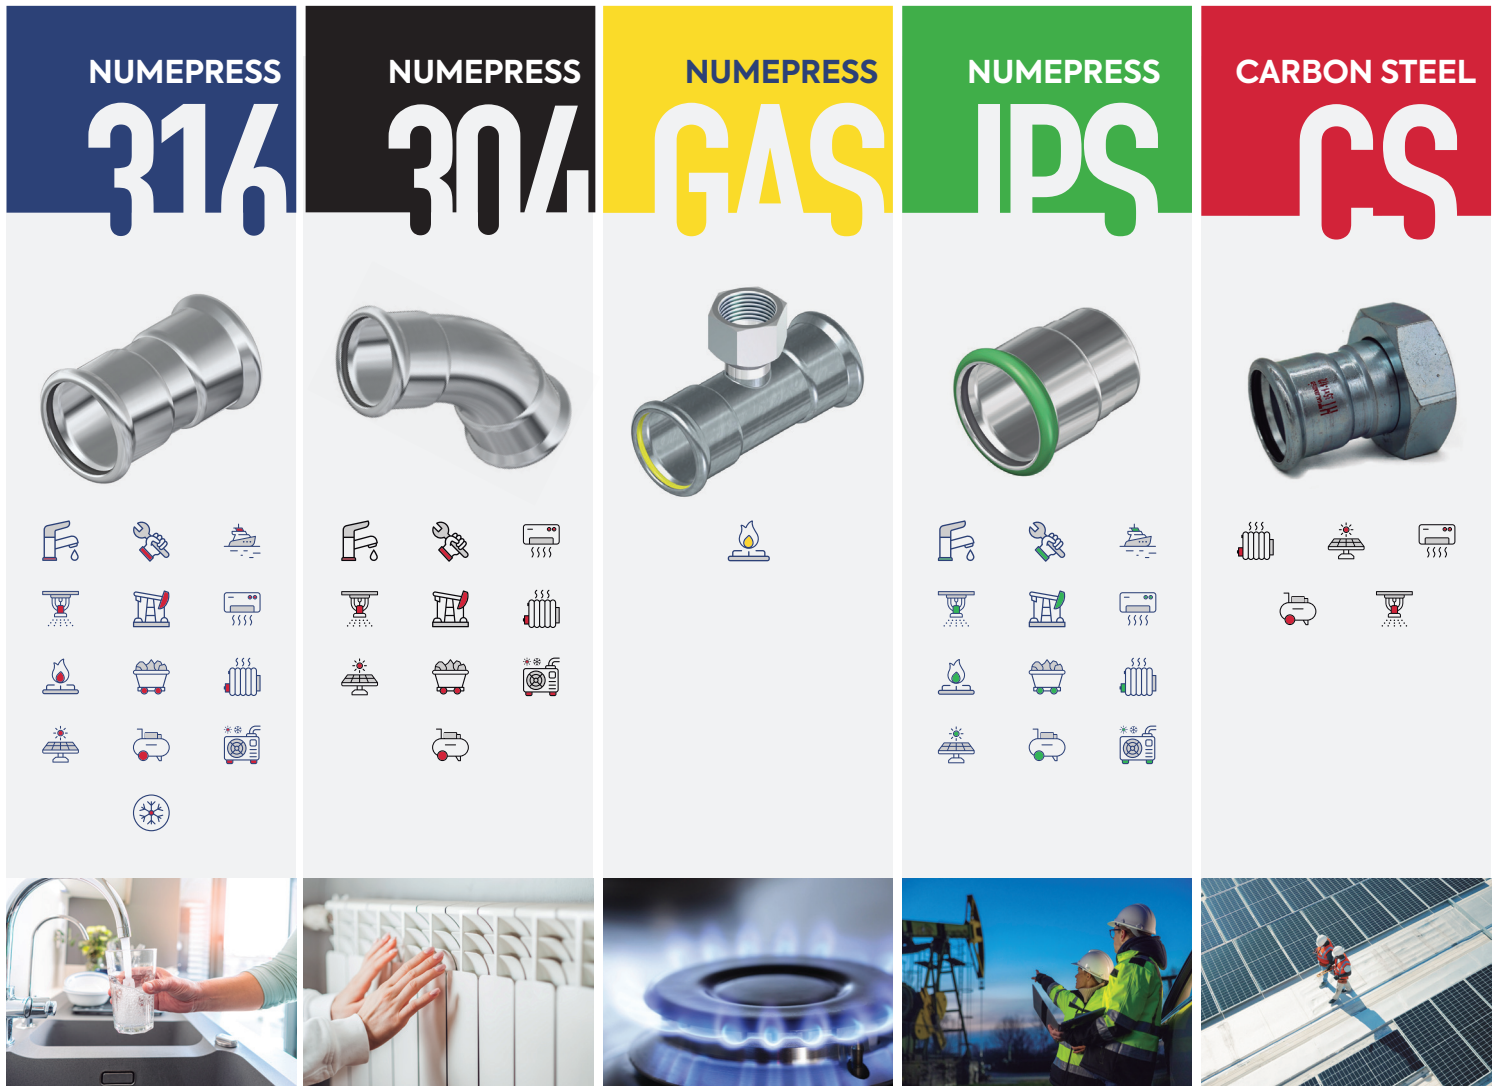

The pipe is produced in accordance with current regulations (UNE-EN 10312, DIN EN 10217-7) and, in the case of material 1.4404, also in line with the specifications of DVGW W541.

RANGE	NUMEPRESS 316	NUMEPRESS 304	NUMEPRESS GAS	NUMEPRESS IPS	CARBON STEEL
MATERIALS	Stainless Steel 1.4404 (AISI 316L)	Stainless Steel 1.4301 (AISI 304)	Stainless Steel 1.4404 (AISI 316L)	Stainless Steel ANSI 316/316L Wall thickness: 1,65mm	Carbon Steel E220 (DX51D+Z)
SIZES	15 to 168,3 mm	15 to 108 mm	15 to 168,3 mm	From 1/2 to 2 inches	From 15 to 108mm

For more detailed information about each product and its certifications, please visit: <https://www.isotubi.com/en/documentation>

ISOTUBI's insignia products are extra-big sizes press-fittings 139.7mm and 168.3mm, initially certified in 2010 by DVGW and consecutively launched on the Global market.
